AirMart is family owned and operated, and we've been working in aircraft brokerage for 50 years. Our talented team has the knowledge and expertise you need to make buying, leasing, or selling an aircraft simple and rewarding.

YOUR AVIATION PARTNER FOR OVER 50 YEARS

AirMart's story began more than 50 years ago when our founders Bob and Carolyn Sutherlin started an FBO, flight school, and aircraft sales office at their hometown airport in southeastern Kentucky. They quickly earned a nation-wide reputation for their extensive knowledge of aircraft and long-term relationships with their customers.

In 2003, Grant and Kim Sutherlin continued that legacy. Under their leadership, the company grew from a dedicated staff of two assistants to a multi-disciplined team of 30 specialized employees.

More than half of our staff are accomplished pilots, with a crew of qualified A&P mechanics, IAs, flight instructors, and CSIPs ready to serve our customer's needs as well. Our capable team has helped thousands of aircraft owners buy and sell with confidence.

Today AirMart sells more than 200 planes around the world each year. We are based on the field at Lexington's Blue Grass Airport (LEX) in state of the art, well-appointed offices with more than 11,000 square feet of hangar space. Our acquisition profile has evolved from piston and light twin aircraft to include turboprops and corporate jets as well.

As your premier aviation resource, our mission is to partner with you at every stage of your aviation journey. From your first purchase to acquiring your dream plane and every trade or upgrade in between, our innovation and experience is here to help you make the most of your mission profile. That's probably why more than half of our business comes from repeat customers.

We'd love to welcome you to the AirMart family. Let's continue this adventure together.
