**UNIT DISCREPANCY**  
WAAS Upgrade

### REPAIR SUMMARY

Upgraded unit to include WAAS capability. Repaired the CDU and COM board to correct issues found while upgrading.

Confirmed all applicable hardware modifications are installed. Updated software to the latest version. Aligned unit for optimum performance. Master cleared unit. Unit passes all tests and is operating within normal limits. Unit acquired satellites. OK to return to Service.

The Main and GPS Softwares are at the latest revision. This unit complies with these Service Bulletins 1317, 1461. It is the responsibility of the Installer to verify that the installation complies with the previous listed Service Bulletins. The following Mod's were installed into this unit under its previous configuration prior to it being upgraded and configuration changed to part number 011-01060-40.

This unit complies with MOD 1 per Garmin's Service Bulletin No. 0019.

This unit complies with MOD 2 per Garmin's Service Bulletin No. 0101.

This unit complies with MOD 3 per Garmin's Service Bulletin No. 0203B.

This unit complies with MOD 4 per Garmin's Service Bulletin No. 0207.

This unit complies with MOD 5 per Garmin's Service Bulletin No. 0211.

This "Certifies that the work specified in block 11/12 was carried out in accordance with EASA Part-145 and in respect to that work the component is ready for release to service under EASA Part-145 Approval Number: EASA.145.5534". The work that was performed on this unit was done to meet the requirements of GNS400W/500W Series WAAS Upgrade Procedure, part number 005-00221-72 and all sections of the Maintenance Manual, part number 190-00364-00 Rev-Q 7/16/2008.

On the Garmin website "garmin.com", you will be able to download and receive more detailed information on the difference between the Classic GNS units and WAAS GNS units. A manual dedicated for the new WAAS GNS series units titled "What's New with the 400W/500W series" is available through <http://www.garmin.com/support/userManual.jsp>.

For more detailed instructions on the operation of the WAAS GNS 400W/500W series, please review the Pilot's Guide for the appropriate units. For your convenience, you will be able to download the Pilot's Guide from the Garmin website. <http://www.garmin.com/support/userManual.jsp>

In addition to the manuals, you will be able to download the WAAS GNS simulator from the Garmin website as well. Please review the Trainer User Guide for detailed operation instructions on the training simulator.

To receive additional operational information, download the free WAAS Training Video from Garmin website. [www.garmin.com](http://www.garmin.com)

If you have any questions, comments, or need a technical assistance on the GNS series units, please contact Garmin product support specialist at 1-800-800-1020 or e-mail us through Garmin website, [www.garmin.com](http://www.garmin.com).

Thank You for Choosing Garmin! If you have any questions or concerns please do not hesitate to contact our customer

# NOTICE

Weight and balance or operating limitation changes shall be entered in the appropriate aircraft record. An alteration must be compatible with all previous alterations to assure continued conformity with the applicable airworthiness requirements.

## 8. Description of Work Accomplished

(If more space is required, attach additional sheets. Identify with aircraft nationality and registration mark and date work completed.)

N55804

Nationality and Registration Mark

June 24 2015

Date

Validated that the previous installation of the GNS 430 was installed IAW Garmin Instructions and approved via a FAA stamped field approval documented on FAA form 337 dated 02-10-2006. Verified that this aircraft and all interfaced equipment are covered under the STC AML.

Removed Following Equipment from the Aircraft.

1. Garmin GNS 430 GPS/COM/NAV/ILS Receiver and returned it to Garmin for factory GNS 430W conversion.
2. Garmin GA 56 GPS Antenna.

Installed after Conversion by Garmin the Following Equipment in the Aircraft:

1. Garmin GNS 430W GPS WAAS (TSO-C146a) COM/NAV/ILS Receiver (STC SA01933LA) located at F.S.#. 57.0.
2. Garmin A-35 GPS Antenna located at F.S.#. 98.0

The GNS 430W was installed as No.1 NAV/COM using the same tray and wiring as the previous GNS 430 and the existing Garmin GI-106 OBS Indicator. The GNS 430W is left/right information was interfaced with the aircraft's Autopilot System. The GA 35 GPS Antenna was installed on the top of the fuselage at F.S.#. 124.0.

Removed also the Flight Manual Supplement for the Garmin GNS 430 and replaced it with the GNS 430W Flight Manual Supplement.

The installation was performed in accordance with Garmin STC Upgrade Installation Manual Garmin P/N 190-00357-06 Rev. D. (March. 2008). STC SA01933LA as well as with AC 43.13-1B chapter 10, 11, 12, AC 43.13-2A chapter 1, 2, 3 and with AC 20-138B.

The total electrical load is not exceeding 80% of the generated capacity.

EMI and RFI test analyses were performed with no adverse effect on the aircraft system noted.

A copy of Instruction to continued airworthiness Garmin Document 190-00356-65 Rev. A was attached to the Aircraft's maintenance records.

Log Book entry was made this date. Flight test was performed on June 24 2015

Detail of this work is filed at this repair station under Work Order No. 06431.

12. REMARKS: Confirmed the return issue. Repaired CDU to correct return issue. Confirmed all applicable hardware modifications are installed. Updated software to the latest version. Aligned unit for optimum performance. Unit passes all tests and is operating within normal limits. OK to return to Service.

This unit complies with this Service Bulletin 0809. It is the responsibility of the Installer to verify that the installation complies with the previous listed Service Bulletins.

This "Certifies that the work specified in block 11/12 was carried out in accordance with EASA Part-145 and in respect to that work the component is ready for release to service under EASA Part-145 Approval Number: EASA.145.5534". The work that was performed on this unit was done to meet the requirements of all sections of the maintenance manual part number 190-00364-00 Rev- AL, Revision Date 5/22/2015.

Thank You for Choosing Garmin! If you have any questions or concerns please do not hesitate to contact our customer service department at 1-800-800-1020. Please view Garmin's web site at [www.garmin.com](http://www.garmin.com) for any update or product information.

All repaired or replaced GARMIN units have a 90-day warranty or the continuation of the original factory warranty from the original purchase date, whichever is longer.

### User/Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article.

Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the Airworthiness Authority of the country specified in block 1.

Statements in Block 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

DESCRIPTION OF WORK PERFORMED—  
SIGNATURE & CERTIFICATE NO. OF PERSON PERFORMING WORK

6-24-15

Date: 06-24-2015 Reg. N55804 Model: Piper PA-28R-200 S/N: 28R-7335291 Tach: 2260.7

Removed Garmin GNS 430 GPS/Com/Nav./ILS, and GA 56 GPS Antenna.  
The Garmin GNS 430 was upgraded to a GNS 430W (P/N 011-01060-40) and reinstalled in same tray. The GA 56 GPS Antenna was replaced with a GA 35 GPS Antenna.  
The installation was performed i.a.w. Garmin Installation Manuals P/N 190-00356-06 Rev. D. and the STC SA01933LA, as well as with AC 43.13-1B chapter 10, 11, 12, AC 43.13-2A chapter 1, 2, 3 and AC 20-138B Replaced also the Flight Manual Supplement.  
Filed Form 337. No change in Weight & Balance, updated the Equipment List.

Details of this work is filed at Three Crown Avionics Inc. C.R.S. # TXXR014L under Work Order # 06431.

Authorized Signature for Three Crown Avionics, Inc. C.R.S. # TXXR014L 

12-18-15

Date: 12-18-2015 Reg. N55804 Model: Piper PA-28R-200 S/N: 28R-7335291 Tach: 2423.1

Installed Garmin GDL-88 Automatic Dependent Surveillance broadcast system on the equipment shelf at F.S.# 188.0, a RAMI av-74 Blade Antenna on the bottom of the fuselage at F.S.# 209.0 and an Northstar Aviation Mod.C serializer. The GDL-88 was hooked up to the AV-74 Antenna and interfaced with the following existing equipment: Garmin GNS 430 WAAS GPS, GTX 327 Transponder and also with the existing Trans-Cal SSD120-3A Encoder through Mod.C Serializer, the GDL-88 Audio was connected to the existing Audio Panel.

The installation was performed i.a.w. Garmin Installation Manuals P/N 190-01310-00 Rev. 8. and the STC SA02119SE, as well as with AC 43.13-2A chapter 2 Section 202.

Updated the Weight and Balance as well as the Equipment list.

A Form 337 for this work was filed on this date.

Details of this work is filed at Three Crown Avionics Inc. C.R.S. # TXXR014L under Work Order # 06541.

Authorized Signature for Three Crown Avionics, Inc. C.R.S. # TXXR014L
